

Assignment Week 7&8 - Portfolio!

You are going to make a portfolio site! It will talk about yourself, and feature all the other projects you've made.

Instructions

1. **See list of requirements below**
2. Create a rough wireframe of **all three** pages
 - a. Pen and Paper drawings
 - b. Digital Tool (like Google Drawings)
3. Select a color palette for your site.
4. Create a mockup of **one** of the three pages, using whatever method you are most comfortable with. Be creative, but practical! Possible tools:
 - a. Digital Tool (like Google Drawings)

Note: Your final site does NOT have to be exactly like the mockup. But the mockup helps you plan, and gives you a target.

Inspiration

Here are some portfolio sites to help you start thinking. Remember that this assignment requires 3 pages, so portfolios that are very tall might be broken down into multiple pages.

<https://anuraghazra.dev/>

<https://codersblock.com/>

<https://monicalent.com/>

<https://meowni.ca/>

<https://adoranwodo.com/>

<https://braydoncoyer.dev/>

Caution

Remember that some of these sites will have features and details that you don't know how to do yet. Once you learn Javascript you'll be able to add them, but if you see something that looks pretty fancy (tiles that fade in, changing text, lots of animation), you don't need to try that.

Use these sites for ideas.

What To Do:

Requirements:	Bonus: (optional)	Extra Bonus:(optional)
<p>Preparation:</p> <ul style="list-style-type: none">You must make a wireframe of all 3 pages (rough)You must make a mockup of at least 1 page <p>Code a website with 3 pages:</p> <ul style="list-style-type: none">(1) Introduction page<ol style="list-style-type: none">Name (or nickname)Profile imageHobby imageDescription of who you areMaybe an image of yourself or something you enjoy.(2) Projects page<ol style="list-style-type: none">Project imagesProject descriptionsLink to your Github page(3) Contact page<ol style="list-style-type: none">With a google formSee https://www.howtogeek.com/435673/how-to-create-a-website-contact-form-with-google-forms/Pages can use custom CSS or bootstrap	<p>Also:</p> <ul style="list-style-type: none">CSS AnimationsVideo or Audio or Youtube	<p>Also:</p> <ul style="list-style-type: none">Use both custom CSS and bootstrap together

What To Hand In:
